President Mahmoud Ahmadinejad of Iran has once again threatened to wipe out Israel if hostilities break out between the two countries.

Quote: "If you think that by bombing and assassinating our leaders, you can stop us, you are wrong."

President Ahmadinejad had previously stated that Israel should be "uprooted" during the World War II. [Jihad Solana](#)

Quote: "EU foreign policy chief Javier Solana, visiting Mr Ahmadinejad in Tehran, said that the EU would not support any unilateral action by Israel against Iran."

Israel and the European Union have also agreed to extend the monitoring agreement for another year. So far, the agreement has been successful in preventing any escalation of the conflict.
