Sorry, not too many updates today, was working heavily on my auntie's website, Adventure Leadership Training website. Please do have a look.

Bring forth the monthly prognosticators! A prominent Arab astrologer, who has supposedly accurately predicted the deaths of prominent Egyptian artists and writers, has predicted 2007 will be the start of increasing conflict that will end in the destruction of Israel 17 years from now. Dr Sayyed Mohammad Ali has also supposedly predicted the conflict in Lebanon, an Israeli war with Iran by the end of the year, and that China and Russia would be involved (maybe he is reading Prophecy in the news?).

Quote: *"According to Ali, during that year, China, Russia and India will back Syrian President Bashar Assad in his confrontation with the United States and the war and "Palestinian resistance to Israel" will increase. The year 2007 will mark the beginning of the countdown for the destruction of Israel, a process that will last 17 years, he claimed.*

Mr Sayyed uses the occult practice of astrology to make his predictions, and therefore while his results do correlate with what the Bible teaches about end time events, this man's words should be shunned for the false prophet that he is. You see, Revelation teaches that the spirit of prophecy is the testimony of Jesus. If prophecy does not glorify the Lord Jesus Christ, then it is from a satanic source and should be disregarded. Even in Old Testament times, the Lord warned Israel that if he sent a false prophet into their midst, who made predictions that came true, and then called them to go after other gods, they were to not listen his words (Deuteronomy 13). There is one thing that demons hate after God, and that is God's chosen people Israel. And the fact that Sayyed predicts Israel will be destroyed - in complete contradiction of God's Word, shows just where he gets his information from. Let's stick to the Bible, we know it's 100% accurate, for we know Who its source is.

Isaiah 47:13
Thou art wearied in the multitude of thy counsels. Let now the astrologers, the stargazers, the monthly prognosticators, stand up, and save thee from these things that shall come upon thee.
